# Mobile Scene Management Barrier

## Crowd Control made easy

The system can be fully deployed by two people in less than four minutes to close a road or contain a public order situation; the system has a facility to join multiple units to increase barrier width.

### Barrier Features:

- › Fully deployable in 4 minutes
- › Front and rear stabilising legs
- › Adjustable deployed width
- › Fold out anti scaling overhangs
- › Solid barrier skin
- › Access door
- › Viewing windows
- › Facility to join multiple units to increase barrier width

### Trailer Features:

- › Single axle for easy manoeuvring
- › EC approved overrun brake system
- › No brake connections between towing (vehicle and trailer)
- › Land Rover / Transit towable
- › Options on towing eye type
- › Low maintenance rubber suspension
- › Fully road legal trailer lighting
- › Run flat tyres

# Mobile Scene Management Barrier

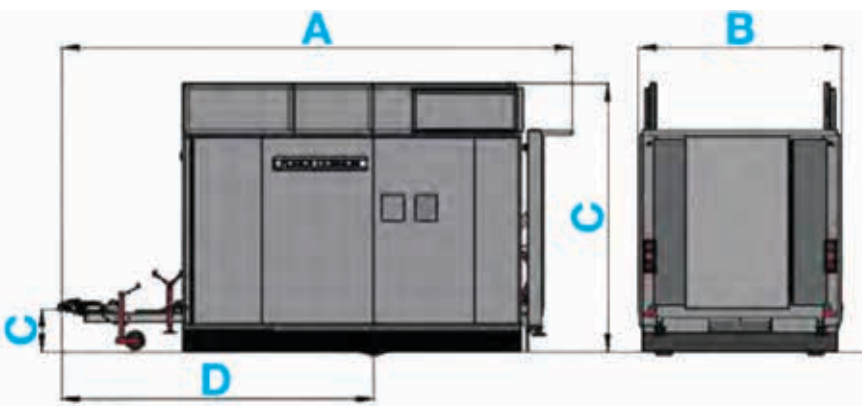

Fully deployed in only 4 minutes

Increase barrier width by joining multiple units

Overhang to prevent scaling of barrier

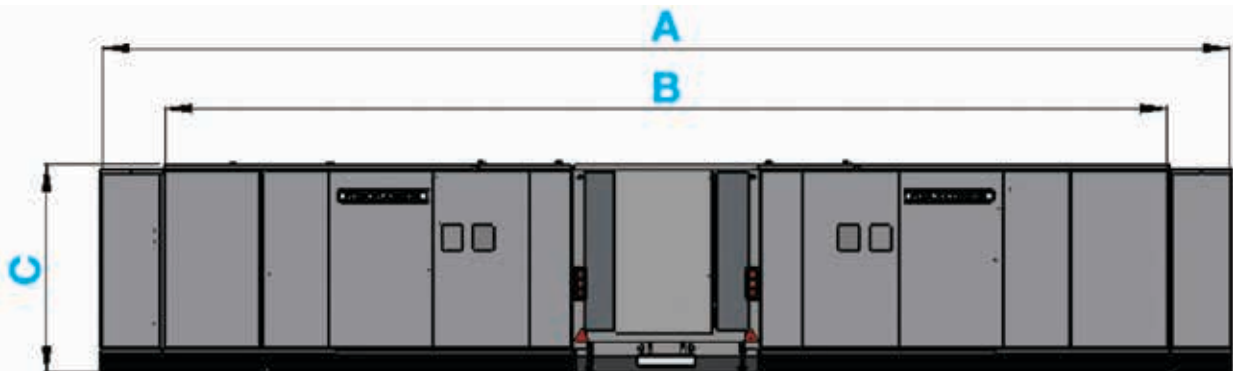

Access door and viewing windows

Trailer type: Single Axle Type O2\* Drawbar Trailer

Trailer Tare Weight 2,350 Kg  
Gross Trailer Load 2,500 Kg  
Maximum Imposed Weight 150 Kg  
Overall Length Dimension A 5,770mm  
Overall Width Dimension B 2,300mm  
Overall Height Dimension C 3,030mm  
Coupling Height Dimension D 500mm  
Wheel Base Dimension E 3,530mm

\*EU trailer type

Maximum Width with Side Doors Deployed – Dimension A – max 13,500mm

Maximum Width with Side Doors Stowed – Dimension B – max 12,000mm

Minimum Width with Side Doors Deployed – Dimension A – min 10,900mm

Minimum Width with Side Doors Stowed – Dimension B – min 9,500mm

Overall Height with Anti Scaling Overhangs Deployed – Dimension C – 2,500mm

Overall Length with Barrier Deployed – Dimension D – 5,800mm

All width dimensions are based on deployment of both fold-out sides

Minimum width with one side only deployed – 5,900mm
